

EDMONTON POLICE SERVICE

REPORT TO THE EDMONTON POLICE COMMISSION

DATE: 2012 April 10

SUBJECT: Quarterly Reporting of EPS Clearance Rates: 2011 Year End

RECOMMENDATION:

That this report be received for information.

INTRODUCTION:

This report will update the Edmonton Police Commission on the 2011 Year End Edmonton Police Service Weighted Clearance Rates.

BACKGROUND:

The EPC has asked for reporting of the EPS clearance rates, separate from the quarterly reporting of the annual policing plan.

1. EPS Clearance Rate Reporting is based on the standards that are consistent with the Centre for Criminal Justice Statistics (CCJS).
2. To ensure appropriate clearance rate accuracy, the reporting is based on a three month time lag. The attached report is based on 2011 Year End (Quarters 1 – 4 inclusive) Results.

COMMENTS/DISCUSSION:

The performance measure for EPS clearance rates is documented in the 2011 Annual Policing Plan Initiative #2, which calls for a 5% increase in EPS clearance rates in 2011 over 2010. The results for the 2011, quarters 1 - 4 are:

- 40.4% weighted clearance rate for 2011, up from 37.6% for year end 2010.

CONCLUSION:

40.4% expressed as an increase in percentage points above 37.6% is an increase of +2.8%.

40.4%, expressed as a percent increase over 37.6% is an increase of +7.44%.

Expressed as a percent point increase over 2010, the EPS did NOT meet its performance objective of +5.0%

Expressed as a percentage increase over the base line year (2010), the EPS is meeting and exceeding its performance objective for a 5% increase in clearance rates.

	2007	2008	2009	2010	2011
All Crime	<u>27.4%</u>	<u>28.8%</u>	<u>31.9%</u>	<u>37.6%</u>	<u>40.4%</u>
Violent Crime	<u>34.5%</u>	<u>34.7%</u>	<u>44.2%</u>	<u>49.2%</u>	<u>48.4%</u>
Non-Violent Crime	<u>24.6%</u>	<u>26.3%</u>	<u>26.8%</u>	<u>32.8%</u>	<u>36.2%</u>

Clearance rates are one measure of police performance. A criminal incident is said to be cleared by the laying of a charge or by other means (e.g., through extrajudicial measures). The clearance rate represents the proportion of all crimes that were successfully cleared. The weighted clearance rate was developed by the Canadian Centre for Justice Statistics to provide a more meaningful picture of crime solved by police services. The weighted clearance rate assigns values to crimes according to their seriousness with more serious crimes being given a higher weight. Since the process of solving crime is often time-consuming, a criminal incident may be solved months or even years after it was reported to police.

Calculations:

Violent Crime - is calculated based on the 1st most serious violation attached to each victim record. Where a victim was not recorded then the count is based on the 1st most serious UCR violation per incident.

$CSI = (\# \text{ Violations} * \text{Weight}) / (\text{Population}) / \text{Weighted rate} * 100$

$WCR = \text{total} (\# \text{ Cleared Violations} * \text{Weight}) / \text{total} (\# \text{ Violations} * \text{Weight}) * 100$

Weighted rate for All Crime is equal to 5.5544, for Violent Crime is equal to 1.5425, and for Non-Violent Crime is equal to 4.0118.
